Tuesday to Saturday – 3 pm to 8 pm

The Form of Liquids

Limits for a Glass

Two Mirrors broken in an excessive chance event

A Suitcase impossible to carry

The two dimensions of a glass

We learn to determine the nature of objects and of phenomena associated to them through their appearance, to which we grant a name. The history of these objects is ruled from this convention and is developed through the certainty that this “appearance” may be as obvious as it is falsifying.

For images or further information, contact Nuno Lapa on the contacts of the Galeria Pedro Oliveira.
